▼	8/26/2012	Operations with Whole Numbers	Pre-Kindergarten	35
▲	8/26/2012	Operations with Whole Numbers	Kindergarten	33

Powered by Stride™ technology.

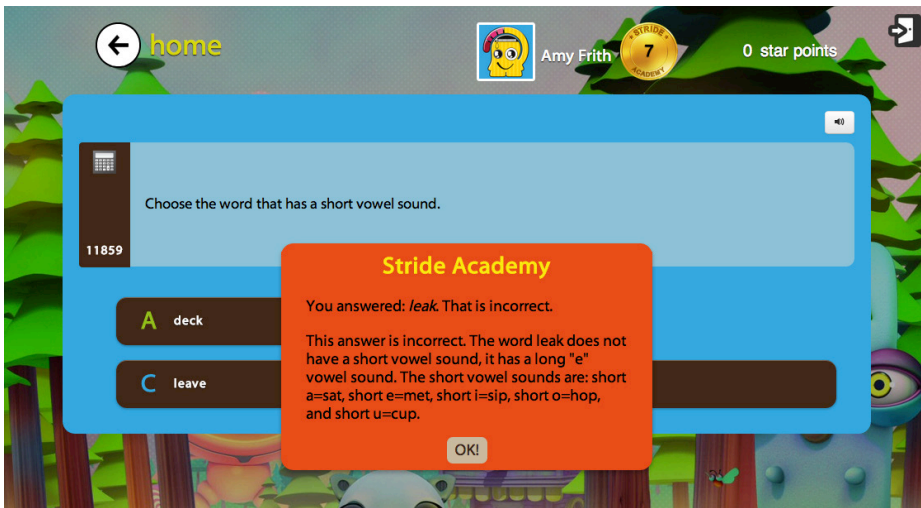

Our patented Stride™ adaptive technology automatically engineers a customized learning plan for each student as they practice skills.

Stride drills deep to discover and remediate the exact standards where the student is struggling. Repositioning the student where he or she can succeed – even several grades lower – builds the foundational skills needed to advance up to grade-level mastery... and beyond.

Self-directed instruction.

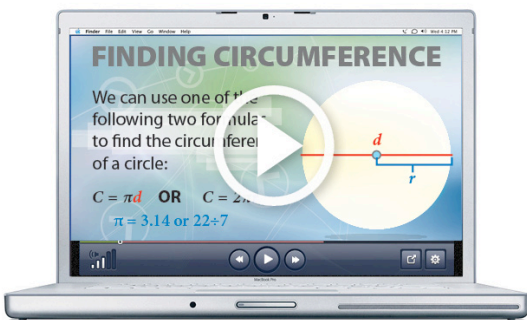

Select a question coin to answer practice Math, Reading and Science questions. Select the Bonus to watch instructional videos. Complete academic activities, and earn coins to spend on your favorite games!

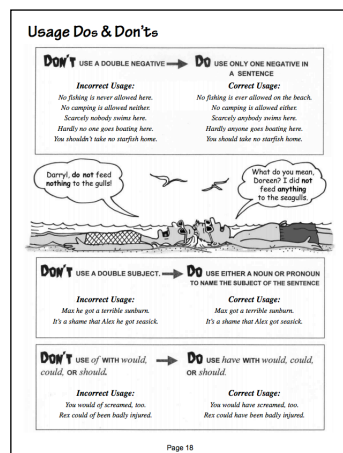

Instant, relevant feedback.

Instant responses and educational rationales for every incorrect answer option provide teachable moments throughout the learning course.

Instructional videos created by master educators teach and review skills on-demand.

Printable, customized study guide pages provide additional small-group or take-home activities.

A multimedia toolkit.

Stride Academy empowers students to manage their own learning. At any time, students can select from online skills practice, instructional video tutorials, and printable study guide pages targeting their specific needs.

Discover how we differentiate with ease.

Save time planning individualized resources for your students.
